

# The High Coast – A World Heritage Site

## **WITH TIME ASHORE IN HÄRNÖSAND**

Join us on a unique cruise to the High Coast and Härnösand! In summer 2018, we will be extending our service further with a 2-day cruise to the beautiful Norrland coast.

If you would like to experience nature at a really high level, you have come to the right place. The dramatic landscape of the High Coast, which actually has the world record in land elevation, was formed over a period of 20,000 years.

Along the Norrland coast, between Härnösand and Örnsköldsvik, you will find the world's highest coastline, deep coves, steep mountains and forests. Experience the beautiful Norrland coast from both land and sea during a truly unique cruise with exciting excursions on land.

We dock in Härnösand, Norrland's best and Sweden's third best summer town according to a poll conducted by the travel site Reseguiden. Choose from several excursions with different themes from history and nature to local food and drink. All led by knowledgeable High Coast guides.

As we steer out of Härnösand, we are the only ship in the world to undertake the four hour journey between the islands of the archipelago through Sannasundet to the High Coast Bridge, via Ulvön and Trysundaön up to Skagsudde.

The cruise is rounded off by all the experiences on board including delicious three-course meals, activities for all tastes, entertainment, spa, bright summer evenings, tax-free shopping and everything else that creates a complete holiday experience.

You will find the itinerary and more information below.

## INTINERARY DAY BY DAY

### Day 1

While we are slowly sailing out of Stockholm on a summer evening, we invite you to enjoy the lovely atmosphere on the sun deck. During the Captain's cocktails, the captain will present many of the personnel who will be taking care of you during the trip. In the evening, you are welcome to enjoy a delicious three-course welcome dinner. Later in the evening we offer entertainment and dancing.

### Day 2 – The High Coast and Härnösand

We wake up in Härnösand – The High Coast's southernmost coastal town. The ship will be docked a stone's throw from the town centre with preserved wooden houses and marine history in the midst of the town. If you would like to experience even more of the unique High Coast, join one of our guided excursions!

In the evening, a delicious three-course dinner awaits while we sail at a leisurely pace through the archipelago. The four-hour journey takes us from Härnösand through Sannasundet to the High Coast Bridge, via Ulvön and Trysundaön up to Skagsudde.

### Day 3

We spend our last day cruising at sea. Join the activities on board – perhaps one last morning exercise class for this trip – make sure to take advantage of our duty-free prices, relax on the sun deck or spoil yourself with a wonderful treatment in our beautiful spa. You can relax for a while in our outdoor jacuzzi with an amazing view of the Stockholm Archipelago and the approach to Stockholm before we return to Stadsgårdskajen. Hopefully many experiences richer.
